

False burden Bearing!

False burden bearing is under the unloving spirit. When we become someone's Holy Spirit and feel responsible for them and don't take care of ourselves.

It will consume your thoughts of thinking about that person (either their situation or need). A person is not able to release them to the Lord and will try to make things happen to them because of False Burden Bearing.

We can pray and release. When they cannot get off their minds, then there is false burden bearing going on. When it has not been released to the Lord. We should be able to pray, release them to the Lord knowing he is taking care of them. Then do the things we need to do with peace. When we false burden bearing, then the Lord is not able to come in because the false burden bearing thing blocks God's moving in their lives. Plus, it steals your peace. It is a very subtle way that the enemy uses on his children.

That is one area I have to watch for my life. I used to be such a big false burden bearing type person. When I get into that thinking, and it has consumed me and I cannot stop thinking about it, then I know I've gone into sin over it and have to cast it out of me. Then, I'm able to release it much better. If I catch myself doing it and I can give it to the Lord with faith, then I don't have to cast it out. I've come out of agreement with it. It has not consumed me yet. You see the enemy wants to get our thoughts off of Christ and be burdened with things. Also, to steal our peace and be burdened over the situation or event.
