

## **The doTERRA Lotus Diffuser was shaped like the Wiccan symbol for “purification.” And lotus is the key symbol used in Buddhism.)**

The founder David Stirling is a Mormon. Christians are unaware of the depths of occult power in Mormonism. They participate in elaborate occult rituals in their temples that rival anything in Wicca witchcraft. The Mormon Temple is covered by Satanic symbols like the all-seeing eye from ancient Egypt and it is common knowledge that Joseph Smith (the Mormon founder) was deeply involved in divination and carried an accursed object called the Jupiter Talisman.

David Stirling worked for Gary Young of Young Living Essential Oil for many years. The history and beliefs of Gary Young are deeply troubling. He has been involved in different types of New Age and occult healing therapies and clinics over the years that made false claims of healing.

It is also interesting to note that many witches sell and advocate both doTerra and Young Living Essential Oils on their websites.

A Christian should never seek out healing or spiritual help from other religions or pagan practices.
